1. What made you decide to start making and selling adult vids?

I liked the idea of being in control of the content I put out there. It's a great way to practice the art of telling my own sexy stories.

2. Where were some of your favorite travel destinations?

My favorite places to travel are always tropical locations because I love the sunshine.

3. What are you turned on by the most?

I suppose I'm what is called a sapiosexual; someone who is sexually attracted by intelligence and mental stimulation. Something as simple as a deep conversation turns me on so much.

4. If you could travel forward in time to a future version of yourself, when would you go to and why?

If I could fast forward to meet a future-me who has a litter of children, steady running businesses, and a successful marriage, all in our summer home on the beach–well then, I'd be delighted!

5. Please describe your ideal romantic/sexual partner.

I imagine the perfect sexual partner for me is someone who's just as open, who's spontaneous, who always keeps me on my toes, and possesses lots of stamina to match mine.

6. If you were visited by Morpheus from The Matrix and was presented with the Blue pill and the Red Pill, which would you take and why?

If I'm ever approached by Morpheus, I'd already know I've been chosen to obviously take the Red Pill and explore secrets of the world that so few get to know.

7. What is your biggest guilty pleasure?

My biggest guilty pleasure would have to be the times I got to travel, date, or have secret rendezvous with high profile people, and choosing to never identify them except in my private diary. I walk around with a "Mona Lisa smile" knowing I've experienced secret adventures I could have only dreamed of!

8. What are some of your bucket list goals that you plan on achieving soon?

I'd love to have a book published one day in the near future. My bucket list has been adjusted many times in the last few years of being in the entertainment industry. It still includes hang gliding in Venezuela, seeing the Northern Lights, designing lingerie with a large brand, and marrying my soul mate.

1. Could you describe us how your very first time as a cam model went?

My first ever cam session was long ago, I had no idea what I was doing at the time. It went well though, I was a little nervous, but I warmed up fast!

2. What is the most memorable moment from your work in the adult industry so far?

Definitely being MV Girl number 20 in June 2017. That was a rank I never thought was in my future!

3. If you could have a date with any living celebrity, who would it be with and why?

I would date Jennifer Aniston. She is so sexy, smart, and has that in-charge presence, I love it!

4. Describe your idea of a perfect vacation:

A cruise for 7 days, with non-stop drinks & excursions!

5. What was the hottest sex you've ever had?

Being fucked non-stop for 3 hours.

6. What characteristics attract you sexually to a person?

Caring, humble, and generous.

7. Tell us about any new upcoming projects that you're planning or working on:

More photoshoots and cosplay fun!!

8. What changes do you hope to see in the adult industry in the next 5 years?

Less judgment, and more safe outreach programs for mental health for sex workers.

1. How would you describe your style?

BARBIE! Haha!! I would definitely say the style I aim towards would be a cross between a Barbie doll and a Playboy Bunny. Super girly, super pink, and super fun!

2. What drew you to ManyVids?

There's a huge difference between ManyVids and any other adult company. With ManyVids I feel like I always have support, room to grow my brand, and I also have the chance to do things such as the Loft. That was an amazing experience that wouldn't have been possible with any other company. I'm very thankful to be an MV Girl not only because of all the opportunities but because of how amazing the entire team is in all aspects.

3. What inspires you in your career?

I'd have to say my customers inspire me the most. Sometimes when I'm having a creative block, I'll put a poll out on Twitter asking what they would like to see next and I always get a few pretty cool ideas that I would have never thought of by myself.

4. What are you into or exploring in your vids lately?

Right now, I'm kind of leaning towards taboo roles such as daddy daughter, step sister, step daughter, type thing. The customers really seem to love it and it comes natural to me (does that sound bad? lol). So far, I'm really pleased with how that type of vid has turned out and I'm excited to create more!

> **We're part of a big family that I love.**

5. What's something you love about being a MV Star and content creator?

Our entire community! I'm so honored to be surrounded by gorgeous, hard working women who share an interest for something I'm really passionate about. Whenever I'm having a rough day on cam or get a negative comment I can always scroll through my feed and be sure to see all the girls supporting each other and pushing each other to keep going. We may not all know each other well but we're a part of a big family, a family that I love!

6. What's your favorite part of yourself?

My big boobies! I got really mixed feedback when I started talking about getting a breast augmentation and I almost didn't go through with it but now I couldn't imagine a life without my melons. #FreeTheNipple!

7. What are your future plans and goals?

I'm still fairly new to MV and the whole adult business so one of my goals would be to really start making my imprint, building my image and brand into something unique and distinguishable. This is definitely just the beginning for me and I'm so grateful to be working with ManyVids.

8. Say something to your fans:

I want my fans to know that they truly are my heart and soul. They've opened so many doors for me and helped me crush goals I never thought were possible. They've changed my entire life and I could never put how much I appreciate and adore them into words.

MV Selfies

WITH

Lily Lou

My favorite way to relax & unwind: Dabs and a good workout.

The last song I sang along to: Not sure, I sing a ton of dumb little songs to myself though. Mostly to the tune of "I'm a little tea pot," or other popular children's song–except I replace the words with something relating to what I'm doing or what a slut I am, LOL!

When I want to feel sexy, I wear: Pretty much any lingerie as long as it covers or lifts my boobs.

My secret crush: Either Legendarylootz, lilcanadiangirl, Tweetney, or purple_bitch–I can't decide!

This always makes me laugh: Being tickled is a guaranteed way to make me laugh. I can't think of anything else that *always* makes me laugh.

When horny but feeling lazy: I wear some tight-fitting panties and have a bullet vibe wedged between my pussy lips.

MV Selfies

WITH

harmonyreigns

This one simple thing makes for great sex: A blindfold.

If I had a warning label it would say: Caution–will bite!

Someone I secretly admire is: Korina Kova.

The quickest way to turn me on is: Blowing on my neck.

The one part of my body I love the most is: My eyes.

My most recent obsession is: Sex dolls.

MV Selfies

WITH

RosieReed

When I want to seduce someone: Give them a nice smile and get really close.

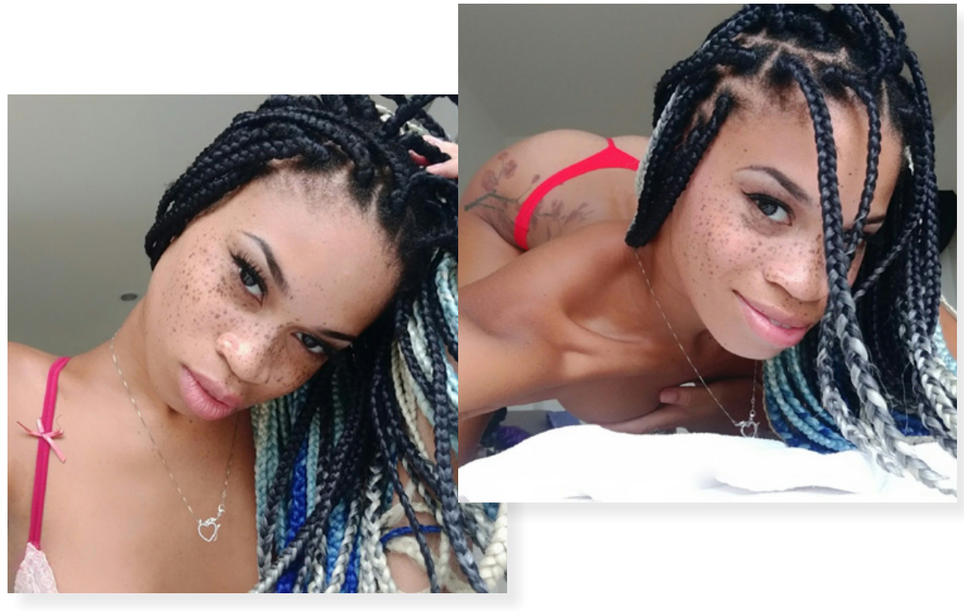

3 words that describe me: Mysterious. Humorous. Creative.

My favorite form of foreplay: You must sex my mind first… It makes me hot!

People are surprised I'm into: Dominating men online, haha.

What I love most about being me: If I want something…I go get it.

If I wrote a book about my life the title would be: "This is Good"

1. You have a lot of ink, what do your tattoos mean to you?

I absolutely love tattoos they are an expression of one's soul. I have about 7 pieces altogether– on my chest, half sleeve, rib cage, forearm, shoulder, hip, and knuckles. My favorite tattoo on my body is my chest piece. It's a heart and bat wings with roses. It represents: my ability to wear my heart on my sleeve, my love of horror movies, and my hometown is all about roses.

2. What do you like best about being an MV Girl and a content creator?

The freedom to come and go as I please with no one trying to sway my decisions. Independence and being my own boss and feeling confident about my life.

3. What's the funniest thing that's happened to you during sex?

The funniest thing that has ever happened to me during sex was when I was riding on top of this fellow, and I was just riding so hard I broke my bed. It was a loud bang, and we rolled off my bed. Needless to say, we finished on the floor, but it was funny as heck.

“I thoroughly enjoy being the one in control.

4. What are your passions outside of adult entertainment?

I'm super into geeky things. I have a collection of comics and books, but the biggest nerdy thing I do is GAME! I own a Call of Duty special edition black ops3 ps4 it's my baby. I love gaming and have since I was little, my first addiction was Sega's Sonic the Hedgehog. I also have a PS4 remote tattooed on my forearm. I love Playstation!!!

5. What makes you feel sexy?

What instantly makes me feel sexy is a skimpy outfit and a phat blunt. I get so sensual when I'm baked. Also, I love being the strong outgoing individual in an interpersonal dynamic. I thoroughly enjoy being the one in control.

6. What do people not realize about your work and your career as an adult creator?

- It's hard work and NOT easy.
- I'm my own boss I crack the whip on my own ass and set all my own schedule.
- It's lonely, people don't understand I spend at least 40 hours a week alone on cam.
- People are jealous of your success, including my family and close "friends."
- My members or fans literally are my best friends, and I take the time to listen to them and care about them.

7. What inspires you in life?

What inspires me to get up every day and make myself proud, is basically the freedom. I've worked on assembly lines and many factory jobs. I WORK HARD. I also love money. Money is there for me if I work for it, and it never judges me.

8. What vids are you most proud of?

My first BBC vid! I was so proud to take that big package down my throat and loved my time being soaked in cum. It's definitely very different to do sexual activities on video than for fun and personal pleasure. I love my BBC vid!!!

1. What is your hottest sexual memory?

I have so many hot sex memories it is so hard to choose! I remember a really hot time where I was tied to my headboard with Christmas ribbon at my parent's house. It was late at night around the holidays, and we didn't have anything else to use. I weirdly don't remember the person, just the feelings and the fun.

2. What do you think makes for an exciting and sexy adult vid?

I think chemistry is a large part of it. It makes the scene so much better when you can feel the passion and pure sex on screen.

3. What's one thing that's made you feel unexpectedly good in bed?

I'm not sure if it is unexpected… but being able to deep throat and absolutely destroy someone in the best way could be part of it. I love seeing the face that a man makes at the moment their cock goes all the way down my throat.

4. What's something that always makes you laugh?

My best friend Summer Day can always make me laugh.

5. If reincarnation is real, what do you hope to be reincarnated as?

I don't believe in reincarnation, but if it was true, I'd want to come back as an eagle. I could soar the skies.

6. What outfit do you wear to feel sexy in?

I love wearing my pink crush velvet robe with almost any lingerie. It makes me feel like a goddess.

7. What's your opinion of outdoor sex?

Outdoor sex can be super hot and spontaneous sometimes. At other times it can be messy, but it is generally always fun!

8. What is the last song that you sang along to?

Thank you, *Next* by Ariana Grande.

1. What do you love the most about doing what you do?

Everything! But really, it's hard to pinpoint exactly one thing that I love the most about what I do! One of the top things would probably be being my own boss. When I've worked normal jobs in the past, I've never felt fulfilled doing work for other people or being on someone else's schedule. I love being able to do my own thing and really put passion into my own work. I also love the connections and friendships that I've made with members of this community! I've met so many amazing friends and great people.

2. How did you first decide to make vids?

I started making vids around the time I had first begun camming, about three years ago. During this time, I wasn't very serious about producing vids, but I saw other girls making them to sell for tokens while they were on cam, and I figured I'd try it. I hate looking back at my earliest vids because the quality is so embarrassing! When I first started, I barely put any effort into them, and for that reason, I actually didn't enjoy making vids. It wasn't until about a year and a half ago that I started focusing more on production quality/editing/plot/etc. Now that I put more effort into my creations and make them my own, I can definitely say that I enjoy it. I love coming up with ideas for new vids and planning everything out. My favorite part is probably editing everything and putting it together to see the final result!

3. Let's say you're given a budget to make a blockbuster porn film. What would you do?

While I don't think I'd ever actually star in a professional film like that, but I'd produce one! I'd like to do some sort of horror parody. While I like a lot of "cutesy" things, I also have always loved horror movies and dark things. Back in October, I made a few horror-themed videos and my Friday the 13th vid is probably my fave creation.

4. If you had a clone of yourself, what would you do?

It would be so cool to have a clone of myself! So many possibilities… But I'd probably just end up having her do chores around the house that I didn't feel like doing so that I could get other stuff done instead. It would be interesting to see people's reactions if I cammed with my clone!

5. What was the craziest custom request you've ever gotten?

I've had so many odd requests (especially the ones that I say no to making), it's hard to pick just one. Some of them are fetishes that I'm just not really into or comfortable doing. As far as something completely ABSURD, one request I've gotten was to make an ASMR video stirring a bowl of mac and cheese while wearing a cat mask and showing my feet. I did not end up making that video!

6. Where do you see yourself taking your career to in the next few years? What are your goals?

I'm hoping to keep camming and making vids as long as I can! I'm continuing to push myself every day and grow my brand. I can't wait to see where things will end up in a few years!

7. You seem like a shy person. How do you manage that with your occupation of being a cam model?

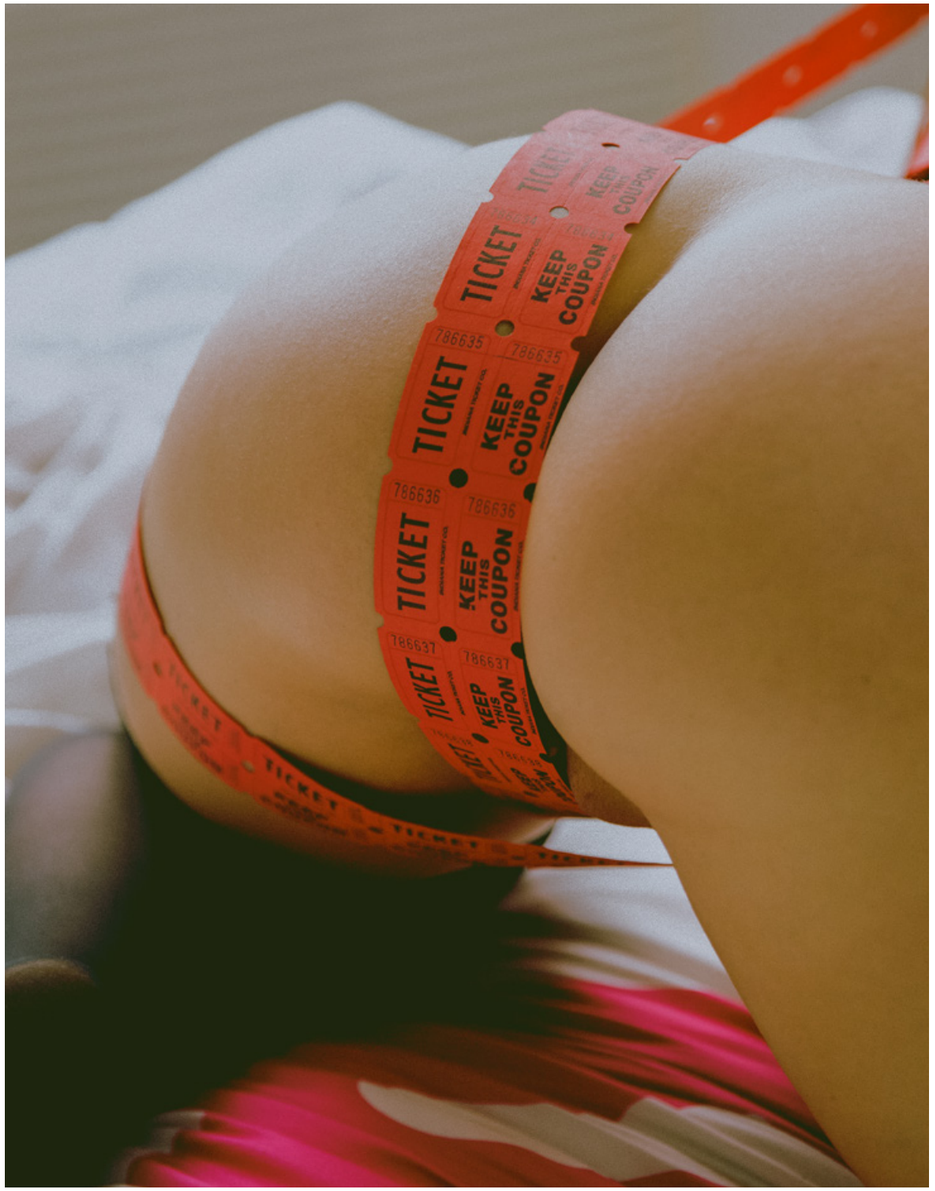

I wouldn't necessarily say that I'm shy, but I'm definitely more guarded when meeting new people. Camming is so much more different than meeting people in real life, and I've never felt shy while on cam. Actually, it's the opposite. I'm so comfortable being online that I feel like I can completely be myself there!

8. What are your personal projects or passions outside of the adult industry?

I LOVE anything related to food. I really enjoy cooking and trying out new recipes. One of my favorite things I've made was homemade soft pretzels with beer cheese. I also really enjoy playing video games. I have a Switch and love playing Zelda and Skyrim.

I. When and how did you realize that you wanted to get into the adult industry?

Getting into the adult industry was sort of a happy accident. Ever since I was young, I was drawn to being an entertainer. I didn't have many friends growing up and being alone gave me time to really bask in my own imagination and perform in front of all my dolls, who sadly were my only friends at the time. Eventually, a toy audience wasn't enough, and I would put on puppet shows for the young neighborhood kids or one-woman-talent-shows for my grandmother's bridge club. I always had a performer inside of me, just wanting to emerge. I joined any club or extracurricular that continued to spark my creativity, primarily dance classes–ballet, tap, jazz, ballroom, salsa–dance became my outlet for expression. I loved the way I could make people feel by using my body to create art. And I was determined to make a career where I could always feel that way.

As I got a bit older, I noticed how in tune I was with my sexuality as well. I grew up in a sex-positive home and was taught that sex and nudity were beautiful and natural. I can still remember stumbling upon my mother's copy of Madonna's book, Sex. It wasn't hidden away but instead left out on a coffee table, proudly displayed, to be looked at and appreciated. That was my first encounter with beautiful nude imagery, and I was drawn to it.

It was only a matter of time before I put those two parts of myself together to form something that would become my career. A few months after turning 18, I joined a local burlesque company and performed at local bars, house parties, and bachelor bashes. I remember hearing about an opening and thinking, "This is perfect for me," it's sexual expression and art all rolled into one gig. I performed a few years until one of my close friends at the time told me about webcamming. I immediately created an account and was hooked. My audience grew from a handful of people to hundred, and then thousands. Webcamming made me feel alive. I've never held a job that I felt more passionate about. I quit my vanilla job(s) in 2014, and the rest is history.

2. What are your hobbies and passions?

Work has always been one of my hobbies, as strange as that may sound. I've always been a bit of an entrepreneur and a go-getter and, before being a webcam model and content creator, I held 3-4 jobs at any given time. Nowadays, you can find me filming or editing content, working on ideas or graphics or reading business-based books. When I get overwhelmed, however, I like to take a step back and veg out playing video games or watching movies. I also enjoy doing anything outside in nature and spending time with friends and family, and my little kitty, Mister Fish.

I am extremely passionate about helping others. I try to volunteer and raise money for causes as much as I can. I previously worked with and for nonprofits, and the spirit of giving and helping those less fortunate than myself is ingrained inside me).

3. How do you like to de-stress?

When I'm stressed, which is often, there are a few different things I like to do. One is taking a hot bubble bath and surrounding myself with candles, dim lighting and instrumental music (typically video game soundtracks). Another is taking a nice, long walk. Working out is a natural stress reliever in itself but doing it in nature makes it so much better. And last–masturbating, duh! If I need to "push reset" and try to fix my mood, an orgasm usually seems to help (and is scientifically proven to do so :P).

4. What were your biggest achievements in the last few years?

As far as my personal life, I bought a house! As far as my career, I have truly started to discover and develop my brand. I finally came out publicly about being a webcam model and began promoting myself, without fear, to grow my fan base. Taking an active role on different social media platforms and really putting myself out there helped me to become nominated for an AVN award (Favorite Cam Girl of the Year), win Cammy Awards, rank consistently high in the top cam girls of my live webcam site, place in top spots in ManyVids contests, etc. The past few years have shown me what a rollercoaster this industry can be but also that if you put in time and effort, you can shatter glass ceiling.

5. What sex act would you consider yourself as a master of?

I genuinely enjoy the art of the tease–making someone yearn for just a taste of you… And letting them get close enough just to move further away again. The art of seduction drives me wild. But if it's a physical sex act you are looking for, I'm a pro at giving dual hand job/blow jobs. It is hands down one of my absolute favorite things to do. I think I just like being a bit more dominant and again, making someone yearn for me and my lips around their… Well, you get the picture.

6. Do you have a personal philosophy that you live by?

Time is the most valuable thing in the world. Life is too short. Make sure you make the best out of it.

7. You seem quite into cosplay. What other characters would you be interested in cosplaying as?

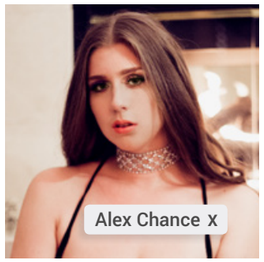

I love cosplay! It is so fun to get to become another version of yourself and play out a fantasy. Before working in the adult industry, I created costumes and attended conventions with my friends as a hobby. Then my career got in the way, and I didn't have as much time to have fun with it anymore. Luckily, I stumbled across content creators who were bringing cosplay to life in naughtier ways, and I was excited to join in on the action! As for what's next… I have plans for more Legend of Zelda themed videos and am a huge Disney nerd, so if I could portray every single Disney princess, I would be insanely happy. Stay tuned!

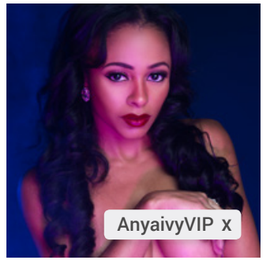

8. What's next in store for you in the future? In which direction do you want your career to go in?

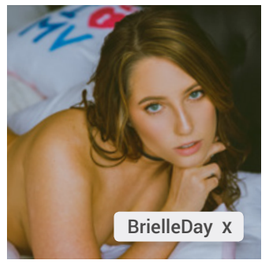

I recently moved to a larger home where I can dedicate myself more to my craft. With multiple rooms dedicated to streaming and filming content, I am happy to say that my brand is going to get bigger and better over the next few years. As far as direction, really, it's only recently that I started to create X-rated content. Previously, I was more of a tease style artist, but I would love to continue to explore my sexuality and become a little more comfortable sharing that side with my fans.
